

Full-time Graduate Engineer (E.U)

Ecole Nationale de l'Aviation Civile

[Full-time Graduate Engineer \(E.U\)](#)

Commission
des titres d'ingénieur

Engineering degree accredited by the "Commission des Titres d'Ingénieur", the French accreditation

Agency.

The profession

Aiming for vocations in the aeronautical industry, ENAC civil engineers study the design, creation and operation of systems and services. Graduates will be able to work for major aircraft manufacturers in aerospace or for airlines. They benefit from ENAC's international renown.

Specializations allow for the development of advanced expertise in areas such as air operations and safety, avionic systems, IT systems, aeronautical and space telecommunications and even drones.
