

Full-time Civil Servant Graduate Engineer

Ecole Nationale de l'Aviation Civile

[Full-time Civil Servant Graduate Engineer](#)

Commission
des titres d'ingénieur

Graduate engineering degree accredited by the French "Commission des Titres d'Ingénieur"

The ENAC Civil servant graduate engineer status allows you to quickly access jobs positions of responsibility within DGAC, the French Civil Aviation Authority, in all its areas of activity. The training is free and remunerated.

The profession

The Civil servant graduate engineer will become a manager within the French Directorate General of Civil Aviation (DGAC) working for IEEAC (Civil Aviation Studies and Operation Engineers). In France, DGAC is the administration attached to the Ministry for the Environment, Energy and Sea, which brings together all the state services in charge of regulating and supervising air security, air transport and civil aviation activities in general.

It is in charge of the different mandates relating to civil aviation, such as:

- Air traffic control
- Maintaining a high level of safety and security in air transport
- Regulating air transport operations
- Supporting research and development in the field of aeronautical construction
- Monitoring and preserving the environment, in fighting noise pollution generated by air transport for instance
